

SHARE OF EXPORTS IN GDP

Relevant for: Indian Economy | Topic: Issues relating to Growth & Development - Foreign Capital, Foreign Trade & BOP

Government has been facilitating, monitoring, assisting and channelizing efforts to increase the exports and thereby its share in GDP through a target-driven approach by engaging all stakeholders, across states and districts. Despite the pandemic, the share of India's total exports (Good & Services) to GDP was 18.7% in 2020-21, which is already above 15 percent. Exports have performed remarkably well in the current financial year with the share of exports to GDP at 21.7 percent in the first half (April to September) of 2021-22.

The following are some of the steps taken by Department of Commerce to increase exports and thereby its share in GDP:

This information was given by the Minister of State in the Ministry of Commerce and Industry, Smt. Anupriya Patel, in a written reply in the Lok Sabha today.
