

UP GOVT ANNOUNCES A UNIQUE 16-DIGIT UNICODE TO IDENTIFY LANDHOLDINGS

Relevant for: Developmental Issues | Topic: Government policies & interventions for development in various Sectors and issues arising out of their design & implementation incl. Housing

Lucknow: The Uttar Pradesh government has introduced a system of issuing a unique 16-digit Unicode to mark all kinds of landholdings in the state, an official said on Sunday.

Every piece of land in the state will have its own unique identity from now onwards that would check cases of land disputes and save people from falling into the trap of fraudsters, an official spokesman said.

The revenue department will be issuing the Unicode for marking all kinds of agricultural, residential and commercial land and a person will now be able to know the details of the land with a single click, he said.

The Unicode number of the land will be 16 digits with the first six digits based on the population of the land, the next 4 digits determining the unique identity of the land. The digits from 11 to 14 will be the number of the division of the land. The last 2 digits will have the details of the category, through which, the agricultural, residential and commercial land will be identified.

The Unicode will put an end to fake registries of the disputed land and the scheme is being implemented across the state. The work has started in most of the districts.

While the Unicode assessment for plots has started in all revenue villages, the work of marking the disputed plots in the computerised management system is being done by the revenue courts, he said.
