

PM ATMA NIRBHAR SWASTH BHARAT YOJANA

Relevant for: Developmental Issues | Topic: Health & Sanitation and related issues

In the Budget speech of FY 21-22, **'Prime Minister AtmanirbharSwasth Bharat Yojana' (PMASBY) scheme has been announced** on 1st February, 2021, with an outlay of about Rs.64,180 Cr over six years (till FY 25-26). This will be in addition to the National Health Mission.

The main interventions under the scheme to be achieved by FY 25-26 are:

The measures under the scheme focus on developing capacities of health systems and institutions across the continuum of care at all levels viz. primary, secondary and tertiary and on preparing health systems in responding effectively to the current and future pandemics/disasters. The PMASBY targets to build an IT enabled disease surveillance system by developing a network of surveillance laboratories at block, district, regional and national levels, in Metropolitan areas & strengthening health units at the Points of Entry, for effectively detecting, investigating, preventing and combating Public Health Emergencies and Disease Outbreaks. Increased investments are also targeted to support research on COVID-19 and other infectious diseases, including biomedical research to generate evidence to inform short-term and medium-term response to COVID-19 like pandemics and to develop core capacity to deliver the One Health Approach to prevent, detect, and respond to infectious disease outbreaks in animals and humans.

National Health Policy (NHP), 2017 envisages raising public health expenditure from the existing 1.15% to 2.5% of GDP by 2025 in a time bound manner.

The Minister of State (Health and Family Welfare), Sh. Ashwini Kumar Choubey stated this in a written reply in the Lok Sabha here today.
