

KASHMIR SAFFRON GETS GI TAG

Relevant for: Indian Economy | Topic: Issues relating to Intellectual Property Rights (IPRs)

Kashmir saffron has been given the GI tag by the Geographical Indications Registry. It is grown in the highlands of Jammu and Kashmir, including in places like Pulwama, Budgam, Kishtwar and Srinagar.

The application was filed by the Directorate of Agriculture, Government of Jammu and Kashmir, and facilitated by the Sher-e-Kashmir University of Agriculture Sciences and Technology, Kashmir, and Saffron Research Station, Dussu (Pampore).

Dear reader,

We have been trying to keep you up-to-date with news that matters to our lives and livelihoods, during these difficult times. To enable wide dissemination of news that is in public interest, we have increased the number of articles that can be read free, and extended free trial periods. However, we have a request for those who can afford to subscribe: please do. As we fight disinformation and misinformation, and keep pace with the happenings, we need to commit greater resources to news gathering operations. We promise to deliver quality journalism that stays away from vested interest and political propaganda.

Please enter a valid email address.

A video on vertical farming, a practice of growing food crops on vertically stacked layers.
