

HOW DANGEROUS IS OMICRON VARIANT? WHO SHARES NEW VARIANT FEATURES

Relevant for: Developmental Issues | Topic: Health & Sanitation and related issues

Omicron, the recently discovered variant of coronavirus, has made governments across the world anxious because of its rapid transmissible nature. The World Health Organization has already declared the Omicron Covid-19 variant 'a variant of concern'. The variant has sparked fears for the fight against the nearly two-year-old coronavirus pandemic. As a result, a dozen of countries have brought the shutters down to contain the new phase of the pandemic.

Here 's how dangerous is Omicron coronavirus variant, WHO answers:
